

# Dream. Print. Repeat.

## UltiMaker S Series

Your perfect tool to explore new 3D printing applications. The S series combines ease of use with versatility, making it possible for you to pick, click, and print from up to 280 materials to meet a wide range of requirements. The possibilities for innovation are endless. And with the S series, they're limited only by your own imagination.

### Key features

- ✓ **Large enclosed build chamber:** Safely print bigger parts at consistent temperatures for better results
- ✓ **Advanced active leveling:** Reliable first-layer adhesion, enables unattended use
- ✓ **Award-winning interface:** One touchscreen to control all integrated components
- ✓ **Replaceable EPA filter:** Removes up to 95% of UFPs for air quality peace of mind
- ✓ **Zero-maintenance humidity control:** All spools stored at < 40% relative humidity
- ✓ **Load spools in seconds:** 6 front-facing bays make loading easy (even during a print)
- ✓ **Automatic material switching:** Sensors detect if a spool runs out and loads the next
- ✓ **Easy setup and monitoring:** NFC spool recognition, filter usage tracking, built-in camera
- ✓ **Composite materials compatible:** Print parts with high-strength and unique properties

### Why choose UltiMaker?

#### Unlocks the full power of Cura

Access the UltiMaker Cura features that speed up your workflow and increase print success - like intent profiles, easy remote printing, and more.

#### Free enterprise software tools

Upgrade to a powerful suite of online software tools that help you to do more with an UltiMaker 3D printer. Stay in control. Gain more flexibility. Streamline your production.

#### Click and print with 280+ materials (2.85 mm)

Any 2.85 mm filament works with UltiMaker hardware, and an expanding selection of materials with print profiles from the UltiMaker Marketplace guarantee print success every time.

#### Future-proof with regular updates

The UltiMaker 3D printers will get better with age. New 3D printing workflow improvements are already planned via regular software and firmware updates for years to come.

## UltiMaker S Series Specifications

	ULTIMAKER S7	ULTIMAKER S5
	Perfect first layers with faster print removal and integrated air filtration.	More space for bigger 3D prints with the widest choice of materials.
Build volume (XYZ)	330 x 240 x 300 mm	330 x 240 x 300 mm
Build chamber	Fully enclosed Passively heated	Partly enclosed Passively heated
Build plate	Flexible steel	Glass
Spool holder	NFC-enabled for 2 spools	NFC-enabled for 2 spools
Compatible materials	280+	280+
Air filtration	Integrated Air Manager	Optional Air Manager
Software	UltiMaker Cura and Digital Factory	UltiMaker Cura and Digital Factory

### Compatible materials

Unlock a wide range of applications with complete material choice. Use Ultimaker materials, any 2.85 mm third-party filament, or access material profiles from leading brands. Choose from these materials and more.
